#### **Ornamental Features**

Tiny Poems Lily features bold lightly-scented black trumpet-shaped flowers with hot pink tips at the ends of the stems in early summer. The flowers are excellent for cutting. Its narrow leaves remain green in color throughout the season. The fruit is not ornamentally significant.

#### **Landscape Attributes**

Tiny Poems Lily is an herbaceous perennial with a rigidly upright and towering form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects
- Disease

Tiny Poems Lily is recommended for the following landscape applications;

- Mass Planting
- General Garden Use

#### **Planting & Growing**

Tiny Poems Lily will grow to be about 14 inches tall at maturity, with a spread of 12 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 10 inches apart. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 10 years.
