Knock Out Rose

Rosa "Knock Out"

Height: 3 feet

Spread: 3 feet

Sunlight: ○

Hardiness Zone: 5

Group/Class: Shrub Rose

Description:

One of the most popular roses in the world today, primarily due to its low maintenance, superior disease resistance and incredibly long period of bloom, with seemingly endless cherry red flowers; all roses need full sun and well-drained soil

Ornamental Features:

Knock Out Rose is smothered in stunning lightly-scented cherry red flowers at the ends of the stems from late spring to early fall, which emerge from distinctive ruby-red flower buds. The flowers are excellent for cutting. It has attractive dark green foliage which emerges burgundy in spring. The glossy oval compound leaves are ornamentally significant and turn an outstanding burgundy in the fall. The fruit is not ornamentally significant.

Landscape Attributes:

Knock Out Rose is a multi-stemmed deciduous shrub with a more or less rounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This rose will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Knock Out Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

Plant Characteristics:

Knock Out Rose will grow to be about 3 feet tall at maturity, with a spread of 3 feet. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This rose should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution.

This particular variety is an interspecific hybrid.

This plant is not reliably hardy and requires winter protection in MN.
